<u>Info Resource Acronym</u>	<u>Info Resource Name</u>	<u>Primary vs. Secondary Mapping</u>	<u>BRM Code</u>	<u>BRM Name</u>	<u>BRM Description</u>
OARLAN-JSB	Office of Air and Radiation (OAR) Local Area Network-1310 L Street	Primary	4	Management of Government Resources	Management of Government Resources refers to the back office support activities that enable the government to operate efficiently.
iSTAR	Integrated Strategic Tracking and Recruiting Database	Primary	1-108-025-01	Manage Air Quality	Activities to ensure that American communities and surrounding ecosystems will be safe from harmful levels of air pollution.
iSTAR	Integrated Strategic Tracking and Recruiting Database	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.

**EPA / OAR / OAP / CAMD - Clean Air Markets Division**

<u>Info Resource Acronym</u>	<u>Info Resource Name</u>	<u>Primary vs. Secondary Mapping</u>	<u>BRM Code</u>	<u>BRM Name</u>	<u>BRM Description</u>
CAMDBS	Clean Air Markets Division (CAMD) Business Systems	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
CAMDBS	Clean Air Markets Division (CAMD) Business Systems	Secondary	1-108-024	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.
CAMDBS	Clean Air Markets Division (CAMD) Business Systems	Secondary	2-201-068	Civilian Operations	Civilian Operations describes the direct provision of a non-military service for the citizen by government employees.
CAMDBS	Clean Air Markets Division (CAMD) Business Systems	Secondary	3-301-092	Program Evaluation	Program Evaluation involves the analysis of internal and external program effectiveness and the determination of corrective actions as appropriate.

CASTNET	Clean Air Status and Trends Network	Primary	1-108	Environmental Management	Environmental Management includes all functions required to monitor the environment and weather, determine proper environmental standards and ensure their compliance, and address environmental hazards and contamination.
CASTNET	Clean Air Status and Trends Network	Secondary	2-202	Knowledge Creation & Management	Knowledge Creation and Management involves the programs and activities in which the Federal Government creates or develops a body or set of knowledge, the manipulation and analysis of which can provide inherent benefits for both the federal and private sector.

AIRNOW	AIRNOW	Primary	1-108-023-01	Air Monitoring & Forecasting	The monitoring of ambient air to assess current air quality conditions and forecast future air quality conditions.
AIRNOW	AIRNOW	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.
AIRQUEST	AirQuest Data Warehouse	Primary	4-404-142-03-01	Access to Structured Data	Activities to provide database administration and management services for warehousing of Agency critical structured data, including backup and recovery, security administration, storage management, performance tuning, data administration and installation and upgrade services. Structured data includes fielded database information.
AIRQUEST	AirQuest Data Warehouse	Secondary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.

AQS	Air Quality System	Primary	1-108-023-01	Air Monitoring & Forecasting	The monitoring of ambient air to assess current air quality conditions and forecast future air quality conditions.
AQS	Air Quality System	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.
AQS	Air Quality System	Secondary	3-306-114	Regulatory Creation	Regulatory Creation involves the activities of research and drafting proposed and final regulations.
AQSMart	Air Quality System Data Mart	Primary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
AQSMart	Air Quality System Data Mart	Secondary	1-108-025-01	Manage Air Quality	Activities to ensure that American communities and surrounding ecosystems will be safe from harmful levels of air pollution.
AQSMart	Air Quality System Data Mart	Secondary	4-404-142-03-01	Access to Structured Data	Activities to provide database administration and management services for warehousing of Agency critical structured data, including backup and recovery, security administration, storage management, performance tuning, data administration and installation and upgrade services. Structured data includes fielded database information.

EISys	Emission Inventory System	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
EISys	Emission Inventory System	Secondary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
OAR Internet Su	Office of Air and Radiation (OAR) Internet Support	Primary	3-305-109-02-03	Provide Public and Agency Web Access	Operations of the Agency's public and intranet web sites (Agency Webmaster).
<b>EPA / OAR / OAQPS / SPPD - Sector Policies and Programs Division</b>					
<u>Info Resource Acronym</u>	<u>Info Resource Name</u>	<u>Primary vs. Secondary Mapping</u>	<u>BRM Code</u>	<u>BRM Name</u>	<u>BRM Description</u>
MKB	Monitoring Knowledge Base	Primary	1-108-025-01	Manage Air Quality	Activities to ensure that American communities and surrounding ecosystems will be safe from harmful levels of air pollution.
RBLC	Reasonably Available Control Technology (RACT); Best Available Control Technology (BACT); Lowest Achievable Emission Rat	Primary	1-108-025-01-01	Manage State & Local Air Quality	Includes activities to develop and implement programs for the prevention and control of air pollution and to implement national primary and secondary ambient air quality standards at the state and local level.
RBLC	Reasonably Available Control Technology (RACT); Best Available Control Technology (BACT); Lowest Achievable Emission Rat	Secondary	2-202-069	Research & Development	Research and Development involves the gathering and analysis of data, dissemination of results, and the development of new products, methodologies, and ideas.

RBLC	Reasonably Available Control Technology (RACT); Best Available Control Technology (BACT); Lowest Achievable Emission Rat	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
RBLC	Reasonably Available Control Technology (RACT); Best Available Control Technology (BACT); Lowest Achievable Emission Rat	Secondary	4-404-138	System Maintenance	System Maintenance supports all activities associated with the maintenance of in-house designed software applications.
RBLC	Reasonably Available Control Technology (RACT); Best Available Control Technology (BACT); Lowest Achievable Emission Rat	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.

----------------------------------------	---------------------------	------------------------------------------------	-----------------	-----------------	------------------------

CBITS	Confidential Business Information Tracking System	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
HPVIS	High Production Volume Information System	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
MTS	Managed Toxic Substances	Primary	1-108-025-06-02	Manage Toxic Substances	Activities to manage the manufacture, distribution, use, processing, and disposal of toxic substances to ensure protection of human health and the environment.
MTS	Managed Toxic Substances	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.

MTS	Managed Toxic Substances	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
PMN Notes	Pre-Manufacturing Notification Lotus Notes Workflow Application	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population

AFS	Air Facility System	Primary	3	Support Delivery of Services	Support Delivery of Services provides the critical policy, programmatic and managerial foundation to support Federal Government Operations.

AFS	Air Facility System	Secondary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
AFS	Air Facility System	Secondary	2-204-077	Inspections & Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity.
ECHO	Enforcement and Compliance History Online	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.
ECIC	Enforcement and Compliance Information Center	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.
FTTS/NCDB	Federal Insecticide, Fungicides and Rodenticide Act/Toxic Substance Control Act (FIFRA/TSCA) Tracking System/National Co	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.

FTTS/NCDB	Federal Insecticide, Fungicides and Rodenticide Act/Toxic Substance Control Act (FIFRA/TSCA) Tracking System/National Co	Secondary	2-204-077-01	Compliance Monitoring	Actions to monitor compliance with rules, including audits and inspections as well as direct measurement of pollutants or substances of interest in permitted discharges or in the ambient environment.
FTTS/NCDB	Federal Insecticide, Fungicides and Rodenticide Act/Toxic Substance Control Act (FIFRA/TSCA) Tracking System/National Co	Secondary	2-204-079-01	Compliance Assistance	Activities to support regulated entities in voluntarily complying with environmental standards, permits, licenses, protocols or other requirements promulgated under EPA authority.
FTTS/NCDB	Federal Insecticide, Fungicides and Rodenticide Act/Toxic Substance Control Act (FIFRA/TSCA) Tracking System/National Co	Secondary	2-204-079-03	Manage Substances	All regulatory activities to require reporting about, and manage the production, distribution and release of, substances of interest to reduce their environmental and health impacts.
FTTS/NCDB	Federal Insecticide, Fungicides and Rodenticide Act/Toxic Substance Control Act (FIFRA/TSCA) Tracking System/National Co	Secondary	2-204-079-04	Enforcement	Activities to enforce compliance with Agency regulations through legal means, including criminal investigations and prosecutions.
ICIS	Integrated Compliance Information System	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
ICIS	Integrated Compliance Information System	Secondary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
ICIS	Integrated Compliance Information System	Secondary	2-204-077	Inspections & Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity.

ICIS	Integrated Compliance Information System	Secondary	2-204-079	Permits & Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.
IDEA	Integrated Data for Enforcement Analysis	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.
IDEA	Integrated Data for Enforcement Analysis	Secondary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
IDEA	Integrated Data for Enforcement Analysis	Secondary	2-204-077	Inspections & Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity.
IDEA	Integrated Data for Enforcement Analysis	Secondary	2-204-079	Permits & Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.
LISA	Laboratory Inspection and Study Audit	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.

LISA	Laboratory Inspection and Study Audit	Secondary	2-204-077-01	Compliance Monitoring	Actions to monitor compliance with rules, including audits and inspections as well as direct measurement of pollutants or substances of interest in permitted discharges or in the ambient environment.
OEALAN-NEIC	Office of Enforcement and Compliance Assurance National Enforcement Investigations Center (NEIC) Local Area Network	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.
OEALAN-NEIC	Office of Enforcement and Compliance Assurance National Enforcement Investigations Center (NEIC) Local Area Network	Secondary	2-204-077	Inspections & Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity.
OTIS	Online Tracking Information System	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.
PCS	Permit Compliance System	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.

PCS	Permit Compliance System	Secondary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
PCS	Permit Compliance System	Secondary	2-204-077	Inspections & Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity.
PCS	Permit Compliance System	Secondary	2-204-079	Permits & Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.
WIETS	Waste Import and Export Tracking System	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
WITSNET	Waste International Tracking System Net	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
WITSNET	Waste International Tracking System Net	Secondary	2-204-077	Inspections & Auditing	Inspections and Auditing involves the methodical examination and review of regulated activities to ensure compliance with standards for regulated activity.

DWCMS	Drupal WCMS for OneEPA Web	Primary	4	Management of Government Resources	Management of Government Resources refers to the back office support activities that enable the government to operate efficiently.
DWCMS	Drupal WCMS for OneEPA Web	Secondary	4-404	Information & Technology Management	Information and Technology Management involves the coordination of information technology resources and systems required to support or provide a citizen service.
DWCMS	Drupal WCMS for OneEPA Web	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
EM	Enviromapper	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population

EM	Enviromapper	Secondary	2	Mode of Delivery	The mechanisms the government uses to achieve the purpose of government, or its Services to Citizens. It includes financial vehicles, direct government delivery, and indirect government delivery.
EM/PDA	EnviroMapper/Personal Digital Apparatus	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
EM/PDA	EnviroMapper/Personal Digital Apparatus	Secondary	2-202	Knowledge Creation & Management	Knowledge Creation and Management involves the programs and activities in which the Federal Government creates or develops a body or set of knowledge, the manipulation and analysis of which can provide inherent benefits for both the federal and private sector.
EM/PDA	EnviroMapper/Personal Digital Apparatus	Secondary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.
ENVIROFACTS	Envirofacts Information Warehouse	Primary	4-404-142-03	Data Access	The provision of portal services, including identity management and access control, to provide access to information storage to all users on an appropriate basis.
ENVIROFACTS	Envirofacts Information Warehouse	Secondary	4-404-142-03-01	Access to Structured Data	Activities to provide database administration and management services for warehousing of Agency critical structured data, including backup and recovery, security administration, storage management, performance tuning, data administration and installation and upgrade services. Structured data includes fielded database information.

EcoStat-Nat	EcoStat Performance Management System	Primary	3-304-104	Strategic Planning	Strategic Planning entails the determination of annual and long-term goals and the identification of the best approach for achieving those goals.
EcoStat-Nat	EcoStat Performance Management System	Secondary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.
INTRA	Intranet	Primary	4	Management of Government Resources	Management of Government Resources refers to the back office support activities that enable the government to operate efficiently.
IOME	Internet Operations and Maintenance Enhancements	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
ME	My Environment	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
ME	My Environment	Secondary	3	Support Delivery of Services	Support Delivery of Services provides the critical policy, programmatic and managerial foundation to support Federal Government Operations.
MyE	MyEnvironment	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population

MyE	MyEnvironment	Secondary	1-101-002	Community & Regional Development	Community and Regional Development includes activities designed to assist communities in preventing and eliminating blight and deterioration, assist economically distressed communities, and encourage and foster economic development through improved public facilities and resources.
MyE	MyEnvironment	Secondary	1-106-015	Elementary, Secondary & Vocational Ed.	Elementary, Secondary & Vocational Ed. (non-EPA)
MyE	MyEnvironment	Secondary	1-106-016	Higher Education	Higher Education refers to education beyond the secondary level; specifically, education provided by a college or university.
MyE	MyEnvironment	Secondary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
MyE	MyEnvironment	Secondary	1-108-024	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.
MyE	MyEnvironment	Secondary	1-110-246	Population Health Mgmt. and Consumer Safety	Population Health Mgmt. and Consumer Safety (non-EPA)
NLC	EPA National Library Catalog	Primary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.

OneEPA Web	OneEPA Web	Primary	4	Management of Government Resources	Management of Government Resources refers to the back office support activities that enable the government to operate efficiently.
OneEPA Web	OneEPA Web	Secondary	4-404	Information & Technology Management	Information and Technology Management involves the coordination of information technology resources and systems required to support or provide a citizen service.
OneEPA Web	OneEPA Web	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
WEBI	Web Registry	Primary	4-404-142-03-02	Access to Semi-Structured & Unstructured Data	Activities to provide database administration and management services for storage of agency semi-structured and unstructured data, including backup and recovery, security administration, storage management, performance tuning, data administration and installation and upgrade services. Semi-structured and unstructured data include agency records as well as documents in the form of web pages, word processing files, e-mails, images, video, audio, and other non-fielded information.
WME/MetaCarta	Window to My Environment/MetaCarta	Primary	2-202	Knowledge Creation & Management	Knowledge Creation and Management involves the programs and activities in which the Federal Government creates or develops a body or set of knowledge, the manipulation and analysis of which can provide inherent benefits for both the federal and private sector.

WME/MetaCarta	Window to My Environment/MetaCarta	Secondary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
Web 2.0	Web 2.0 Applications Project - Infrastructure and Deployment Support	Primary	4-404	Information & Technology Management	Information and Technology Management involves the coordination of information technology resources and systems required to support or provide a citizen service.
Web 2.0	Web 2.0 Applications Project - Infrastructure and Deployment Support	Secondary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.
Web 2.0	Web 2.0 Applications Project - Infrastructure and Deployment Support	Secondary	4-404-142-03-02	Access to Semi-Structured & Unstructured Data	Activities to provide database administration and management services for storage of agency semi-structured and unstructured data, including backup and recovery, security administration, storage management, performance tuning, data administration and installation and upgrade services. Semi-structured and unstructured data include agency records as well as documents in the form of web pages, word processing files, e-mails, images, video, audio, and other non-fielded information.
Web 2.0	Web 2.0 Applications Project - Infrastructure and Deployment Support	Secondary	4-404-142-04	Data Analysis	The provision of applications and tools for decision support analytics on an enterprise basis. This includes activities to ensure that Agency business information is made conveniently available to the public, partners, stakeholders and regulated parties in suitable forms and formats, including the provision of supporting tools and programs to analyze and interpret that information.

Web 2.0	Web 2.0 Applications Project - Infrastructure and Deployment Support	Secondary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.
WebCMS	Web Content Management System	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
WebCMS	Web Content Management System	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.
WebCMS	Web Content Management System	Secondary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.

WebCMS	Web Content Management System	Secondary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.

TRI-MEWeb	Toxics Release Inventory - Made Easy Web	Secondary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.
TRIPS	Toxics Release Inventory Processing System	Primary	1-108-025-07	Prevent Pollution	Activities that encourage voluntary reduction in the generation of wastes or the conservation of natural resources and energy.

TRIPS	Toxics Release Inventory Processing System	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
TRIS	Toxics Release Inventory System	Primary	1-108	Environmental Management	Environmental Management includes all functions required to monitor the environment and weather, determine proper environmental standards and ensure their compliance, and address environmental hazards and contamination.
TRIS	Toxics Release Inventory System	Secondary	2-201	Direct Services to Citizens	The delivery of a good or service to (or on behalf of) the citizenry by the Federal Government with no other intervening persons, conditions, or organizations.
<b>EPA / OEI / OIC / CSD - Collections Strategies Division</b>					
<b>Info Resource Acronym</b>	<b>Info Resource Name</b>	<b>Primary vs. Secondary Mapping</b>	<b>BRM Code</b>	<b>BRM Name</b>	<b>BRM Description</b>
CMDS	Content Management and Discovery Services	Primary	4-404-141	Record Retention	Record Retention involves the operations surrounding the management of the official documents and records for an agency.
CMDS	Content Management and Discovery Services	Secondary	4-404-141-02	Document Tracking	Activities related to the proper maintenance, tracking, publication, and archiving of official Agency documents.
CMDS	Content Management and Discovery Services	Secondary	4-404-141-02-02	Records Management	Activities related to the policies, procedures and tracking of records of Agency business from creation to eventual archiving.

ECMS	Enterprise Content Management System	Primary	4-404-141	Record Retention	Record Retention involves the operations surrounding the management of the official documents and records for an agency.
ECMS	Enterprise Content Management System	Secondary	4-404-141-02	Document Tracking	Activities related to the proper maintenance, tracking, publication, and archiving of official Agency documents.
ECMS	Enterprise Content Management System	Secondary	4-404-141-02-02	Records Management	Activities related to the policies, procedures and tracking of records of Agency business from creation to eventual archiving.
ECMS-ET	ECMS Email Training	Primary	4-404-141-01	Policy/Guidelines/Standards	Activities supporting the proper publication, maintenance, storage, and retrieval of policies, standards, and guidelines governing Agency activities.
ECMS-ET	ECMS Email Training	Secondary	4-404-141-02-02	Records Management	Activities related to the policies, procedures and tracking of records of Agency business from creation to eventual archiving.
EREG	eRulemaking	Primary	3-306-115	Rule Publication	Rule Publication includes all activities associated with the publication of a proposed or final rule in the Federal Register and Code of Federal Regulations.
EREG	eRulemaking	Secondary	3-306-113	Public Comment Tracking	Public Comment Tracking involves the activities of soliciting, maintaining, and responding to public comments regarding proposed regulations.
FOIA Module	Freedom of Information Act Module	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
FOIA Module	Freedom of Information Act Module	Secondary	4	Management of Government Resources	Management of Government Resources refers to the back office support activities that enable the government to operate efficiently.
FOIAXpress	FOIAXpress	Primary	3-305-109-02-01	FOIA	Processes and procedures that ensure compliance with information requests under the Freedom of Information Act.

PRAMS	Paperwork Reduction Act Management System	Primary	4-404-141-02-02	Records Management	Activities related to the policies, procedures and tracking of records of Agency business from creation to eventual archiving.
PUF	Public Use Forms Database	Primary	3-306	Regulatory Development	Regulatory Development involves activities associated with developing regulations, policies, and guidance to implement laws.
<b>EPA / OEI / OIC / IESD - Information Exchange and Services Division</b>					
<u>Info Resource</u>		<u>Primary vs. Secondary</u>			
<u>Acronym</u>	<u>Info Resource Name</u>	<u>Mapping</u>	<u>BRM Code</u>	<u>BRM Name</u>	<u>BRM Description</u>
ARRADb	American Recovery and Reinvestment Act EPA Recipient Submission Database	Primary	4-402	Financial Management	The use of financial information to measure, operate and predict the effectiveness and efficiency of an entity's activities in relation to its objectives. The ability to obtain and use such information is usually characterized by having in place policies, practices, standards, and a system of controls that reliably capture and report activity in a consistent manner.
CDX	Central Data Exchange	Primary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.
CDX	Central Data Exchange	Secondary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
CPSMS	CROMERR Program and Stakeholder Management System	Primary	3-301-093	Program Monitoring	Program Monitoring involves the data gathering activities required to determine the effectiveness of internal and external programs and the extent to which they comply with related laws, regulations, and policies.

DERS	Data Element Registry Services	Primary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
DERS	Data Element Registry Services	Secondary	3	Support Delivery of Services	Support Delivery of Services provides the critical policy, programmatic and managerial foundation to support Federal Government Operations.
EDG	Environmental Dataset Gateway	Primary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.
EDG	Environmental Dataset Gateway	Secondary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
EME	Environmental Protection Agency Metadata Editor	Primary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.
EME	Environmental Protection Agency Metadata Editor	Secondary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
ESLT	Enterprise Site Locator Tool	Primary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.

ETS	Error Tracking System	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
ETS	Error Tracking System	Secondary	4	Management of Government Resources	Management of Government Resources refers to the back office support activities that enable the government to operate efficiently.
FRS	Facility Registry System	Primary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
FRS	Facility Registry System	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.

FRS	Facility Registry System	Secondary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.
FRS	Facility Registry System	Secondary	4-404-142-04	Data Analysis	The provision of applications and tools for decision support analytics on an enterprise basis. This includes activities to ensure that Agency business information is made conveniently available to the public, partners, stakeholders and regulated parties in suitable forms and formats, including the provision of supporting tools and programs to analyze and interpret that information.
GDC	Geospatial Data Clearinghouse	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
GDI	Geospatial Data Index	Primary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.
GEO-GIS	National Geospatial Program	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
GEO-GIS	National Geospatial Program	Secondary	3-305-109	Official Information Dissemination	Official Information Dissemination includes all efforts to provide official government information to external stakeholders through the use of various types of media, such as video, paper, web, etc.

GEO-GIS	National Geospatial Program	Secondary	3-318-262	Develop Geospatial Policies, Standards & Guidance	Develop Geospatial Policies, Standards, and Guidance includes activities to develop and maintain policies, standards, and guidance to support the understanding, consistent use, and improvement of geospatial data, services, and tools to improve decision making.
GEO-GIS	National Geospatial Program	Secondary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
GOS	Geospatial One-Stop	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
GeoFinder	EPA GeoFinder Application	Primary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.
GeoFinder	EPA GeoFinder Application	Secondary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.

LRT	Locational Reference Tables	Primary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
RCS	Reusable Component Services	Primary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.
RCS	Reusable Component Services	Secondary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.
READ	Registry of EPA Applications, Models, and Databases	Primary	3-304-103	Enterprise Architecture	Enterprise Architecture is an established process for describing the current state and defining the target state and transition strategy for an organizations people, processes, and technology.
READ	Registry of EPA Applications, Models, and Databases	Secondary	3-305	Public Affairs	Public Affairs involves the exchange of information and communication between the Federal Government, citizens and stakeholders in direct support of citizen services, public policy, and/or national interest.
READ	Registry of EPA Applications, Models, and Databases	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.

SRS	Substance Registry Services	Primary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
SRS	Substance Registry Services	Secondary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.
SoR	System of Registries	Primary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
SoR	System of Registries	Secondary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.
SoR	System of Registries	Secondary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.

TS	Terminology Services	Primary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
TS	Terminology Services	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
TS	Terminology Services	Secondary	4-404-142-04	Data Analysis	The provision of applications and tools for decision support analytics on an enterprise basis. This includes activities to ensure that Agency business information is made conveniently available to the public, partners, stakeholders and regulated parties in suitable forms and formats, including the provision of supporting tools and programs to analyze and interpret that information.
XML	XML Registry	Primary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.

XML	XML Registry	Secondary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.

For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
DrumTrak	Drum Trak	Primary	1-104-010	Emergency Response	Emergency Response involves the immediate actions taken to respond to a disaster. These actions include, but are not limited to, providing mobile telecommunications, operational support, power generation, search and rescue, and medical life saving actions.

DrumTrak	Drum Trak	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.
EPAOSC	EPAOSC Websites	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
EPAOSC	EPAOSC Websites	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
ICTS	Institutional Controls Tracking System	Primary	1-108-024	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.

ICTS	Institutional Controls Tracking System	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
OSRTICAL	Superfund OSRTI Calendar Application	Primary	4-404-138	System Maintenance	System Maintenance supports all activities associated with the maintenance of in-house designed software applications.
RACMIS	Response Action Contract Management Information System	Primary	3-301-093	Program Monitoring	Program Monitoring involves the data gathering activities required to determine the effectiveness of internal and external programs and the extent to which they comply with related laws, regulations, and policies.
RACMIS	Response Action Contract Management Information System	Secondary	4-402-129	Reporting and Information	Reporting and Information includes providing financial information, reporting and analysis of financial transactions.
RACMIS	Response Action Contract Management Information System	Secondary	4-405-146	Services Acquisition	Services Acquisition involves the oversight and/or management of contractors and service providers from the private sector.
RCMS 2000	Removal Cost Management System	Primary	4-402-124-02	Manage Costs	Activities to measure the full costs of programs, and their various elements, activities, and outputs. Cost management is essential for providing accurate program measurement information, performance measures, and financial statements with verifiable reporting of the cost activities. This process includes cost setup and accumulation, cost recognition, and cost distribution.
RODS	Records of Decision	Primary	1-108-024	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.
RODS	Records of Decision	Secondary	2-201	Direct Services to Citizens	The delivery of a good or service to (or on behalf of) the citizenry by the Federal Government with no other intervening persons, conditions, or organizations.

RODS	Records of Decision	Secondary	2-204	Regulatory Compliance & Enforcement	Regulatory Compliance and Enforcement involves the direct monitoring and oversight of a specific individual, group, industry, or community participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.
SCDM	Superfund Chemical Data Matrix	Primary	1-108-024-01	Site & Area Evaluation & Cleanup	Activities to evaluate, plan for, perform removals, and clean up formally designated sites or areas that suffer significant environmental degradation, usually from historical pollution contributed by industrial, commercial, or federal government activities.
SDMS	Superfund Document Management System	Primary	1-108-024	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.
SDMS	Superfund Document Management System	Secondary	1-104-009	Disaster Repair & Restore	Disaster Repair & Restore (non-EPA)
SDMS	Superfund Document Management System	Secondary	1-104-010	Emergency Response	Emergency Response involves the immediate actions taken to respond to a disaster. These actions include, but are not limited to, providing mobile telecommunications, operational support, power generation, search and rescue, and medical life saving actions.

					Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. SEMS	Superfund Enterprise Management System	Primary	1-104-009	Disaster Repair & Restore	Disaster Repair & Restore (non-EPA)
SEMS	Superfund Enterprise Management System	Secondary	1-104-010-02	Anthropogenic Spills & Incidents Response	Activities to respond on an emergency basis to oil spills, hazardous waste spills, industrial accidents and other environmental emergencies or environmentally-related health emergencies. Includes both removals and first-response cleanups.
SEMS	Superfund Enterprise Management System	Secondary	1-108-024-01	Site & Area Evaluation & Cleanup	Activities to evaluate, plan for, perform removals, and clean up formally designated sites or areas that suffer significant environmental degradation, usually from historical pollution contributed by industrial, commercial, or federal government activities.

SEMS	Superfund Enterprise Management System	Secondary	2-203-076	Information Infrastructure Management	Information Infrastructure Management involves the management and stewardship of a type of information by the federal government and/or the creation of physical communication infrastructures on behalf of the public in order to facilitate communication. This includes the management of large amounts of information (e.g., environmental and weather data, criminal records, etc.), the creation of information and data standards relating to a specific type of information (patient records), and the creation and management of physical communication infrastructures (networks) on behalf of the public. Note: Information infrastructures for government use are not included here.
SEMS	Superfund Enterprise Management System	Secondary	3-302	Internal Risk Management & Mitigation	Internal Risk Management and Mitigation involves all activities relating to the processes of analyzing exposure to risk and determining appropriate countermeasures.
SEMS	Superfund Enterprise Management System	Secondary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.
SEMS	Superfund Enterprise Management System	Secondary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.
SEMS	Superfund Enterprise Management System	Secondary	4-404-141-02-02	Records Management	Activities related to the policies, procedures and tracking of records of Agency business from creation to eventual archiving.
SERAS	Screening Ecological Risk Assessment Software	Primary	1-108-024-01	Site & Area Evaluation & Cleanup	Activities to evaluate, plan for, perform removals, and clean up formally designated sites or areas that suffer significant environmental degradation, usually from historical pollution contributed by industrial, commercial, or federal government activities.

SERAS	Screening Ecological Risk Assessment Software	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.
SFCFPUBS	Superfund Publications Verity/ColdFusion Application	Primary	1-108-024	Environmental Remediation	Environmental Remediation supports the immediate and long-term activities associated with the correcting and offsetting of environmental deficiencies or imbalances, including restoration activities.
SFCFPUBS	Superfund Publications Verity/ColdFusion Application	Secondary	1-106-015	Elementary, Secondary & Vocational Ed.	Elementary, Secondary & Vocational Ed. (non-EPA)
SFCFPUBS	Superfund Publications Verity/ColdFusion Application	Secondary	1-106-016	Higher Education	Higher Education refers to education beyond the secondary level; specifically, education provided by a college or university.
SFCFPUBS	Superfund Publications Verity/ColdFusion Application	Secondary	2-202-070	General Purpose Data & Statistics	General Purpose Data and Statistics includes activities performed in providing empirical, numerical, and related data and information pertaining to the current state of the nation in areas such as the economy, labor, weather, international trade, etc.
SFCFPUBS	Superfund Publications Verity/ColdFusion Application	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. OW WCOP	Office of Water Web Content Organization Project	Secondary	3-305-109-02-03	Provide Public and Agency Web Access	Operations of the Agency's public and intranet web sites (Agency Webmaster).
OW WCOP	Office of Water Web Content Organization Project	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
SDWIS ODS/Web	Safe Drinking Water Information System Operational Data Store	Primary	1-108-025-03	Ensure Safe Drinking Water	Activities to ensure the availability of safe drinking water.
SDWIS ODS/Web	Safe Drinking Water Information System Operational Data Store	Secondary	1-108-025-03-02	Management of Public Water Systems	Activities to support the development and implementation of national safe drinking water standards as applied to the Nations public waste supply systems.
SDWISNG	Safe Drinking Water Information System Next Generation	Primary	1-108-025-03-02	Management of Public Water Systems	Activities to support the development and implementation of national safe drinking water standards as applied to the Nations public waste supply systems.
SDWISNG	Safe Drinking Water Information System Next Generation	Secondary	1-108-025-03-02-01	Develop Drinking Water Standards	Activities to develop drinking water standards for public water systems.

SDWISNG	Safe Drinking Water Information System Next Generation	Secondary	1-108-025-03-02-02	Monitor and Assure Public Water Supply Compliance	Activities to monitor the compliance of public water supplies with all applicable national standards and guidelines. Also includes financial support for associated infrastructure investments.
WC	Watershed Central	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
WC	Watershed Central	Secondary	1-101	Community & Social Services	Community and Social Services includes all activities aimed at creating, expanding, or improving community and social development, social relationships, and social services in the United States. This includes all activities aimed at locality-specific or nationwide social development and general social services. This Line of Business includes general community development and social services programs, as well as earned and unearned benefit programs that promote these objectives.
WC	Watershed Central	Secondary	1-106	Education	Education refers to those activities that impart knowledge or understanding of a particular subject to the public. Education can take place at a formal school, college, university or other training program. This Line of Business includes all government programs that promote the education of the public, including both earned and unearned benefit programs.
WC	Watershed Central	Secondary	1-108	Environmental Management	Environmental Management includes all functions required to monitor the environment and weather, determine proper environmental standards and ensure their compliance, and address environmental hazards and contamination.

WIL	Wetlands Information Layer	Primary	1-108-025-02-05	Manage Wetlands	Activities to manage, protect, and restore the wetlands of the United States, including such tools as planning programs and dredge and fill controls.
WIL	Wetlands Information Layer	Secondary	1-108-024-01	Site & Area Evaluation & Cleanup	Activities to evaluate, plan for, perform removals, and clean up formally designated sites or areas that suffer significant environmental degradation, usually from historical pollution contributed by industrial, commercial, or federal government activities.
WIL	Wetlands Information Layer	Secondary	2-204-079-02	Issue Permits	The issuance of permits, licenses, or registrations to industry or other organizations, pursuant to regulations promulgated under EPA statutes, by EPA or by its partners (states, localities and tribes) to control pollution directly or indirectly.
WIL	Wetlands Information Layer	Secondary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
WQSDB	Water Quality Standards Database	Primary	1-108-025-02-01	Develop & Implement Surface Water Quality Stds.	Activities to support the establishment and implementation of scientifically defensible water quality standards at the state, tribal, and local levels. Includes the development of scientific guidance materials, the review of partners water quality standards, and the maintenance of national information on standards governing U.S. waters, including rivers, streams, ground water, and the oceans.
WQSDB	Water Quality Standards Database	Secondary	2-204-078-01	Environmental Standard Setting	Activities under EPA statutes to set standards, such as National Ambient Air Quality Standards, drinking water standards, and pesticides tolerances, to protect human health and the environment against pollutants in the environment, in human or animal tissues, or in food or drinking water.

DWMA	Drinking Water Mapping Application	Secondary	1-108-025-03-02	Management of Public Water Systems	Activities to support the development and implementation of national safe drinking water standards as applied to the Nations public waste supply systems.
DWMA	Drinking Water Mapping Application	Secondary	1-117-056	Water Resource Management	Water Resource Management (non-EPA)
DWMA	Drinking Water Mapping Application	Secondary	3-318	Geospatial Services	Geospatial Services includes activities to support and enhance the use of geospatial data, services, and tools to improve decision-making.
DWNIMS	Drinking Water State Revolving Fund (DWSRF) National Information Management System	Primary	1-108-025-03-02-02	Monitor and Assure Public Water Supply Compliance	Activities to monitor the compliance of public water supplies with all applicable national standards and guidelines. Also includes financial support for associated infrastructure investments.

DWNIMS	Drinking Water State Revolving Fund (DWSRF) National Information Management System	Secondary	2-207-087	Formula Grants	Formula Grants involve the allocation of money to states or their subdivisions in accordance with distribution formulas prescribed by law or administrative regulation, for activities of a continuing nature.
DWNIMS	Drinking Water State Revolving Fund (DWSRF) National Information Management System	Secondary	3-301-093	Program Monitoring	Program Monitoring involves the data gathering activities required to determine the effectiveness of internal and external programs and the extent to which they comply with related laws, regulations, and policies.
GSIS	Geologic Sequestration Information /system	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
GSIS	Geologic Sequestration Information /system	Secondary	2-204-079	Permits & Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.
NCOD	National Contaminant Occurrence Database	Primary	1-108-025-03	Ensure Safe Drinking Water	Activities to ensure the availability of safe drinking water.
NCOD	National Contaminant Occurrence Database	Secondary	1-108-025-03-02	Management of Public Water Systems	Activities to support the development and implementation of national safe drinking water standards as applied to the Nations public waste supply systems.
NCOD	National Contaminant Occurrence Database	Secondary	2-202	Knowledge Creation & Management	Knowledge Creation and Management involves the programs and activities in which the Federal Government creates or develops a body or set of knowledge, the manipulation and analysis of which can provide inherent benefits for both the federal and private sector.
NCOD	National Contaminant Occurrence Database	Secondary	3-306	Regulatory Development	Regulatory Development involves activities associated with developing regulations, policies, and guidance to implement laws.

NEMI	National Environmental Methods Index	Primary	1-109	Gen. Science & Innovation	General Science and Innovation includes all federal activities to meet the national need to advance knowledge in this area. This includes general research and technology programs, space exploration activities, and other research and technology programs that have diverse goals and cannot be readily classified into another Line of Business or Sub-function.
NEMI	National Environmental Methods Index	Secondary	2-202-069	Research & Development	Research and Development involves the gathering and analysis of data, dissemination of results, and the development of new products, methodologies, and ideas.
NEMI	National Environmental Methods Index	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
SDWARS	Safe Drinking Water Accession and Review System	Primary	1-108-025-03-02	Management of Public Water Systems	Activities to support the development and implementation of national safe drinking water standards as applied to the Nations public waste supply systems.
SDWIS	Safe Drinking Water Information System	Primary	1-108-025-03	Ensure Safe Drinking Water	Activities to ensure the availability of safe drinking water.

SDWIS	Safe Drinking Water Information System	Secondary	1-108-025-03-02	Management of Public Water Systems	Activities to support the development and implementation of national safe drinking water standards as applied to the Nations public waste supply systems.
SDWIS	Safe Drinking Water Information System	Secondary	1-108-025-03-02-01	Develop Drinking Water Standards	Activities to develop drinking water standards for public water systems.
SDWIS	Safe Drinking Water Information System	Secondary	1-108-025-03-02-02	Monitor and Assure Public Water Supply Compliance	Activities to monitor the compliance of public water supplies with all applicable national standards and guidelines. Also includes financial support for associated infrastructure investments.
UIC Nat'l DB	Underground Injection Control National Database	Primary	1-108-025-07	Prevent Pollution	Activities that encourage voluntary reduction in the generation of wastes or the conservation of natural resources and energy.
UIC Nat'l DB	Underground Injection Control National Database	Secondary	1-108-025-03-01	Underground Injection Control	Activities to support state, local, and tribal governments to prevent contamination of drinking water supplies from ground water pollution caused by the underground injection of wastes.
UIC Nat'l DB	Underground Injection Control National Database	Secondary	2-204-079	Permits & Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.

For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.

GRTS	Section 319 Grants Reporting and Tracking System	Primary	1-108-025-02-03	Manage Non-Point Sources of Water Pollution	Includes activities to prevent, reduce, and eliminate discharge of pollutants from non-point sources into the Nations rivers, streams, and ground water.
GRTS	Section 319 Grants Reporting and Tracking System	Secondary	1-108-025-02-04	Manage Watersheds	Activities to support the planning and implementation of programs to manage water quality on a watershed basis, including the design of risk-based, load-based, water-quality based, and other approaches that go beyond technology-based approaches to point and non-point source controls. Also includes financial support for associated infrastructure investments.
GRTS	Section 319 Grants Reporting and Tracking System	Secondary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.
GRTS	Section 319 Grants Reporting and Tracking System	Secondary	4-404-142-04	Data Analysis	The provision of applications and tools for decision support analytics on an enterprise basis. This includes activities to ensure that Agency business information is made conveniently available to the public, partners, stakeholders and regulated parties in suitable forms and formats, including the provision of supporting tools and programs to analyze and interpret that information.
ND-VMP	National Directory of Volunteer Monitoring Programs	Primary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
ND-VMP	National Directory of Volunteer Monitoring Programs	Secondary	1-106-015	Elementary, Secondary & Vocational Ed.	Elementary, Secondary & Vocational Ed. (non-EPA)

NTTS	National Total Maximum Daily Load (TMDL) Tracking System	Primary	1-108-023-02	Water Monitoring & Forecasting	The monitoring of surface water, including marine environments, to assess current environmental water quality and forecast future water quality.
NTTS	National Total Maximum Daily Load (TMDL) Tracking System	Secondary	2-202-072	Knowledge Dissemination	Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. For example, an agency might perform research (the Mode of Delivery) addressing a particular service for citizen (for example environmental management) and as a result publish a report on the findings. In this instance, the research would be the Mode of Delivery and publishing the report would be a Support Delivery of Service.
NTTS	National Total Maximum Daily Load (TMDL) Tracking System	Secondary	4-404-142-03	Data Access	The provision of portal services, including identity management and access control, to provide access to information storage to all users on an appropriate basis.
STORET	Storage and Retrieval for Water Quality Data	Primary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.

					<p>Knowledge Dissemination addresses those instances where the primary method used in delivering a service is through the publishing or broadcasting of information, such as the Voice of America or web-based museums maintained by the Smithsonian. It is not intended to address circumstances where the publication of information is a byproduct of the actual Mode of Delivery. 					<p>Program Monitoring involves the data gathering activities required to determine the effectiveness of internal and external programs and the extent to which they comply with related laws, regulations, and policies.</p>
STORET	Storage and Retrieval for Water Quality Data	Secondary	3-301-093	Program Monitoring	
					<p>The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population</p>
WPB	Watershed Plan Builder	Primary	1	Services to Citizens	

WPB	Watershed Plan Builder	Secondary	1-101	Community & Social Services	Community and Social Services includes all activities aimed at creating, expanding, or improving community and social development, social relationships, and social services in the United States. This includes all activities aimed at locality-specific or nationwide social development and general social services. This Line of Business includes general community development and social services programs, as well as earned and unearned benefit programs that promote these objectives.
WPB	Watershed Plan Builder	Secondary	1-106	Education	Education refers to those activities that impart knowledge or understanding of a particular subject to the public. Education can take place at a formal school, college, university or other training program. This Line of Business includes all government programs that promote the education of the public, including both earned and unearned benefit programs.
WPB	Watershed Plan Builder	Secondary	1-108	Environmental Management	Environmental Management includes all functions required to monitor the environment and weather, determine proper environmental standards and ensure their compliance, and address environmental hazards and contamination.

<u>Info Resource</u> <u>Acronym</u>	<u>Info Resource Name</u>	<u>Primary vs. Secondary</u> <u>Mapping</u>	<u>BRM Code</u>	<u>BRM Name</u>	<u>BRM Description</u>
CAED TOCAR	CAED Transparency, Openness, Communication, and Accountability Repository	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population
CAED TOCAR	CAED Transparency, Openness, Communication, and Accountability Repository	Secondary	4-404-138	System Maintenance	System Maintenance supports all activities associated with the maintenance of in-house designed software applications.
CAED TOCAR	CAED Transparency, Openness, Communication, and Accountability Repository	Secondary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
CAED TOCAR	CAED Transparency, Openness, Communication, and Accountability Repository	Secondary	4-404-142-03	Data Access	The provision of portal services, including identity management and access control, to provide access to information storage to all users on an appropriate basis.

CAEDINT	CAED Internal Applications	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
CAEDINT	CAED Internal Applications	Secondary	4-404-142-03	Data Access	The provision of portal services, including identity management and access control, to provide access to information storage to all users on an appropriate basis.
EATS	Enforcement Action Tracking Support	Primary	1-108-025	Pollution Prevention & Control	Pollution Prevention and Control includes activities associated with identifying appropriate pollution standards and controlling levels of harmful substances emitted into the soil, water and atmosphere from manmade sources. Environmental mitigation projects are also included in this business line.
EATS	Enforcement Action Tracking Support	Secondary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
EATS	Enforcement Action Tracking Support	Secondary	4-404-142-02	Data Collection	Activities to support the collection of business information from states, partners, stakeholders and regulated parties, especially in relation to Agency regulatory programs.
FTRAC	CAED Furlough Tracking Application	Primary	1	Services to Citizens	The mission and purpose of the United States government in terms of the services it provides both to and on behalf of the American citizen. It includes the delivery of citizen-focused, public, and collective goods and/or benefits as a service and/or obligation of the Federal Government to the benefit and protection of the nation's general population

FTRAC	CAED Furlough Tracking Application	Secondary	4-404-138	System Maintenance	System Maintenance supports all activities associated with the maintenance of in-house designed software applications.
FTRAC	CAED Furlough Tracking Application	Secondary	4-404-142-01	Data Administration & Integration	Management of Agency data standards for compliance with all applicable EPA and non-EPA requirements and development and administration of data stewardship programs to facilitate the efficient sharing of environmental information among EPA, states, tribes, and other federal agencies and international governments.
FTRAC	CAED Furlough Tracking Application	Secondary	4-404-142-03	Data Access	The provision of portal services, including identity management and access control, to provide access to information storage to all users on an appropriate basis.
ICIS FEC CMS	ICIS FE&C Compliance Monitoring Screens	Primary	4-404-136	System Development	System Development supports all activities associated with the in-house design and development of software applications.
ICIS FEC CMS	ICIS FE&C Compliance Monitoring Screens	Secondary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.
eDisclosure	eSelf Disclosure	Primary	1-108-025-08	Compliance & Enforcement	Activities supporting all EPA Pollution Prevention and Control Programs through the direct monitoring and oversight of specific individuals, groups, industries, or communities participating in a regulated activity via market mechanisms, command and control features, or other means to control or govern conduct or behavior.

eDisclosure	eSelf Disclosure	Secondary	1-108-025-01	Manage Air Quality	Activities to ensure that American communities and surrounding ecosystems will be safe from harmful levels of air pollution.
eDisclosure	eSelf Disclosure	Secondary	1-108-025-02	Manage Water Quality	Activities to ensure the maintenance of oceans, watersheds, waterways, and aquatic ecosystems to support economic and recreational activities, and to provide healthy habitat for fish, plants, and wildlife. Includes activities to develop, implement, and manage programs for the prevention, reduction, and elimination of surface and ground water pollution from point and non-point sources.
eDisclosure	eSelf Disclosure	Secondary	1-108-025-09	Environmental Stewardship	Activities to support the development of programs, infrastructure, technical capabilities, outreach, training, research, and other general capabilities including consultative services to protect and enhance environmental quality at the national, state, local, and tribal levels.

<u>Info Resource</u>		<u>Primary vs. Secondary</u>			
<u>Acronym</u>	<u>Info Resource Name</u>	<u>Mapping</u>	<u>BRM Code</u>	<u>BRM Name</u>	<u>BRM Description</u>
R6ADVDB	Region 6 Advisory Database	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
R6BANKLOG	Region 6 Bank Card Log	Primary	4-402-129	Reporting and Information	Reporting and Information includes providing financial information, reporting and analysis of financial transactions.

R6BANKLOG	Region 6 Bank Card Log	Secondary	4-402-124-02	Manage Costs	Activities to measure the full costs of programs, and their various elements, activities, and outputs. Cost management is essential for providing accurate program measurement information, performance measures, and financial statements with verifiable reporting of the cost activities. This process includes cost setup and accumulation, cost recognition, and cost distribution.
R6BANKLOG	Region 6 Bank Card Log	Secondary	4-402-124-03	Manage Audits	Activities to track audit recommendations and issues raised by the Office of the Inspector General, work with the Inspector General to resolve potential audit issues and obtain unqualified audit opinions, and ensure that appropriate actions are taken in a timely fashion.
R6BANKLOG	Region 6 Bank Card Log	Secondary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
R6BCT	Region 6 Branch Calendar Template	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
R6CCD	Region 6 Consolidated Credential Database	Primary	4-401-121	Security Management	Security Management involves the physical protection of an organizations personnel, assets and facilities (including security clearance management). Note: Activities related to securing data and information systems are addressed under the IT Security Sub-function.
R6CCD	Region 6 Consolidated Credential Database	Secondary	4-404-140-01	IT Security Program Management	Activities to manage the EPA IT Security Program.

R6EmerContact	Region 6 Emergency Contacts Database	Primary	1-111-034-02	EPA Emergency Preparedness	Activities to prepare for responding to national or environmental emergencies, including planning; the development of communications protocols and systems; advance coordination and exercises with partners, including other federal agencies, states, tribes and localities; stockpiling of equipment and supplies; and the training of staff and response teams.
R6EmerContact	Region 6 Emergency Contacts Database	Secondary	1-104-008-02	EPA Emergency Preparedness	Activities to prepare for responding to national or environmental emergencies, including planning; the development of communications protocols and systems; advance coordination and exercises with partners, including other federal agencies, states, tribes and localities; stockpiling of equipment and supplies; and the training of staff and response teams.
R6GRIPS	Region 6 Grants Regional Image Processing System	Primary	4-402-125-05	Perform Grants Financial Management	Activities to manage the grant process, including the operation and maintenance of the grants financial management system consistent with established financial and related grants laws, regulations, government-wide policy, and best practices. Includes necessary policies, procedures, guidance, training, management, and corrective action.
R6HRTTT	Region 6 HR Turnover Tracker Template	Primary	4-403-251-03	Perform Personnel Actions	Activities to submit, receive, accept and perform the requests for actions that officially change the status of employees. Maintain the official record of personnel action. Submit, receive, accept and perform the requests for actions that officially change the status of employees. Maintain the official record of personnel action. Includes providing advice and assistance to employees and managers, program administration, research, and case management in matters related to conduct, performance, attendance, and dispute resolution.

					HR Strategy develops effective human capital management strategies to ensure federal organizations are able to recruit, select, develop, train, and manage a high-quality, productive workforce in accordance with merit system principles. This sub-function includes: conducting both internal and external environmental scans; developing human resources and human capital strategies and plans; establishing human resources policy and practices; managing current and future workforce competencies; developing workforce plans; developing succession plans; managing the human resources budget; providing human resources and human capital consultative support; and measuring and improving human resources performance.
R6HRTT	Region 6 HR Turnover Tracker Template	Secondary	4-403-250	HR Strategy	
R6ITTR	Region 6 IT Training Reports	Primary	4-404-140-01	IT Security Program Management	Activities to manage the EPA IT Security Program.
R6ITTR	Region 6 IT Training Reports	Secondary	4-404-140-05	IT Security Training & Awareness	Activities to train staff in IT risk assessment, security infrastructure operations and maintenance, and IT vulnerability management and response.
R6LAN	Region 6 Local Area Network	Primary	4-404-139-01	Networks & Telecom. Infrastructure Ops. & Maintenance	All activities to operate and maintain networks and telecommunications infrastructure, including planning, budgeting, acquiring, installing, and maintaining this infrastructure.
R6LNLOC	Region 6 Lotus Notes Locator	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.

R6OPF	Region 6 Official Personnel Folders (OPF) Imaging	Primary	4-403-251-03	Perform Personnel Actions	Activities to submit, receive, accept and perform the requests for actions that officially change the status of employees. Maintain the official record of personnel action. Submit, receive, accept and perform the requests for actions that officially change the status of employees. Maintain the official record of personnel action. Includes providing advice and assistance to employees and managers, program administration, research, and case management in matters related to conduct, performance, attendance, and dispute resolution.
R6ORALOC	Region 6 Oracle Locator	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
R6QTRAK	Region 6 QTRAK	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.
R6Registrar	Registrar - Region 6	Primary	4-403-255-02	Design & Manage Employee Training Programs	Refers to planning, administering, or evaluating programs designed to develop employees and manage learning in the organization.

R6SF52	Region 6 SF-52 Tracking Template	Primary	4-403-251-03	Perform Personnel Actions	Activities to submit, receive, accept and perform the requests for actions that officially change the status of employees. Maintain the official record of personnel action. Submit, receive, accept and perform the requests for actions that officially change the status of employees. Maintain the official record of personnel action. Includes providing advice and assistance to employees and managers, program administration, research, and case management in matters related to conduct, performance, attendance, and dispute resolution.
R6SIDOS	Region 6 Supply Inventory and Distribution Ordering System	Primary	4-402-124-02	Manage Costs	Activities to measure the full costs of programs, and their various elements, activities, and outputs. Cost management is essential for providing accurate program measurement information, performance measures, and financial statements with verifiable reporting of the cost activities. This process includes cost setup and accumulation, cost recognition, and cost distribution.
R6SIDOS	Region 6 Supply Inventory and Distribution Ordering System	Secondary	4-402-124-04	Provide Core Internal Accounting	Provide accounting services for core Agency activities, including salaries and expenses, operations, and maintenance, and the Working Capital Fund.
R6SIDOS	Region 6 Supply Inventory and Distribution Ordering System	Secondary	4-402-129	Reporting and Information	Reporting and Information includes providing financial information, reporting and analysis of financial transactions.
R6SIDOS	Region 6 Supply Inventory and Distribution Ordering System	Secondary	4-405-143	Goods Acquisition	Goods Acquisition involves the procurement of physical goods, products, and capital assets to be used by the Federal Government.
R6SIDOS	Region 6 Supply Inventory and Distribution Ordering System	Secondary	4-405-144	Inventory Control	Inventory Control refers to the tracking of information related to procured assets and resources with regard to quantity, quality, and location.

R6SITREP	Region 6 SITREP Template	Primary	1-104-010	Emergency Response	Emergency Response involves the immediate actions taken to respond to a disaster. These actions include, but are not limited to, providing mobile telecommunications, operational support, power generation, search and rescue, and medical life saving actions.
R6SITS	Region 6 Security Investigation Tracking System	Primary	4-404-140-01	IT Security Program Management	Activities to manage the EPA IT Security Program.
R6Secure	R6 Secure	Primary	4-404-140-01	IT Security Program Management	Activities to manage the EPA IT Security Program.
R6Secure	R6 Secure	Secondary	4-404-140-03	Security Infrastructure Ops. & Maintenance	Activities to ensure the continued operations and maintenance of security systems and procedures that are designed to protect the core IT infrastructure of the agency, including networks, telecommunications systems, servers, and databases.
R6Secure	R6 Secure	Secondary	4-404-140-04	IT Vulnerability Management & Incident Response	Activities to identify and quantify the vulnerabilities or potential threats to assets and capabilities of the agency IT infrastructure and to respond to incidents as they occur.
R6TRACKIT	Region 6 TrackIT Help Desk Application	Primary	4-401-120	Help Desk Services	Help Desk Services involves the management of a service center to respond to government and contract employees technical and administrative questions.
R6TRACKIT	Region 6 TrackIT Help Desk Application	Secondary	4-404-142-04	Data Analysis	The provision of applications and tools for decision support analytics on an enterprise basis. This includes activities to ensure that Agency business information is made conveniently available to the public, partners, stakeholders and regulated parties in suitable forms and formats, including the provision of supporting tools and programs to analyze and interpret that information.
R6WAR	Region 6 Weekly Activity Report (WAR) Template	Primary	4-404-142	Information Management	Information Management involves the coordination of information collection, storage, dissemination, and destruction as well as managing the policies, guidelines, and standards regarding information management.

AO Budget	AO Budget	Primary	3-301-093	Program Monitoring	Program Monitoring involves the data gathering activities required to determine the effectiveness of internal and external programs and the extent to which they comply with related laws, regulations, and policies.
R08LAN	Local Area Network - Region 8	Primary	4-404	Information & Technology Management	Information and Technology Management involves the coordination of information technology resources and systems required to support or provide a citizen service.
R8 COOP1	Geographic Information System Continuity of Operations Data - Region 8	Primary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
R8 ISP Service	Information Services Request - Region 8	Primary	4-404	Information & Technology Management	Information and Technology Management involves the coordination of information technology resources and systems required to support or provide a citizen service.
R8 SEIS	Region 8 Staff Emergency Information System	Primary	4-403	Human Resource Management	Human Resource Management involves all activities associated with the recruitment and management of personnel.

R8 VHD	Visual Help Desk - Region 8	Primary	4-404	Information & Technology Management	Information and Technology Management involves the coordination of information technology resources and systems required to support or provide a citizen service.
R8AIR051910	R8 Air Records Database	Primary	4-404-141-02-02	Records Management	Activities related to the policies, procedures and tracking of records of Agency business from creation to eventual archiving.
R8CHEMINV	R8CHEMINV	Primary	4-405-144	Inventory Control	Inventory Control refers to the tracking of information related to procured assets and resources with regard to quantity, quality, and location.
R8ConfRmSched	R8 Conference Room Scheduler	Primary	4-401-119	Facilities, Fleet & Equipment Management	Facilities, Fleet, and Equipment Management involves the maintenance, administration, certification, and operation of office buildings, fleets, machinery, and other capital assets that are possession of the Federal Government.
R8Delegate	Delegations - Region 8	Primary	4-404-262	Information Sharing	Information Sharing relates to any method or function, for a given business area, facilitating: data being received in a usable medium by one or more departments or agencies as provided by a separate document or agency or other entity; and data being provided, disseminated or otherwise made available or accessible by one department or agency for use by one or more separate departments or agencies, or other entities, as appropriate.
R8EnvMon	R8 Environmental Monitor	Primary	3-302-094	Contingency Planning	Contingency Planning involves the actions required to plan for, respond to, and mitigate damaging events.
R8FRED	R8FRED	Primary	4-404-141	Record Retention	Record Retention involves the operations surrounding the management of the official documents and records for an agency.

R8GISPrd	R8 GIS Production Database	Primary	3-318-263	Implement Geospatial Services	Implement Geospatial Services includes activities to acquire, design, build, deploy, and maintain geospatial services for the management and interpretation of geospatial information to support agency activities and improve decision making.
R8HRTracker	R8 HR Tracker	Primary	4-403	Human Resource Management	Human Resource Management involves all activities associated with the recruitment and management of personnel.
R8HealthSafety	R8HealthSafety	Primary	4-401	Administrative Management	Administrative Management involves the day-to-day management and maintenance of the internal infrastructure.
R8IpMonitor	R8IpMonitor	Primary	4-404-139-03	Data & Application Hosting Infra. Ops. & Maintenance	Activities to support data and application hosting, including mainframe, supercomputer and central client-server computational services and support implementation, operation, and support of application hosting hardware and software platforms, including technologies for application development and deployment, data access, data movement/transformation, and management of structured and unstructured data.
R8LIMS	R8 Laboratory Information Management System	Primary	1-108-023	Environmental Monitoring & Forecasting	Environmental Monitoring and Forecasting involves the observation and prediction of environmental conditions. This includes but is not limited to the monitoring of water quality, water levels, ice sheets, air quality, regulated and non-regulated emissions, as well as the observation and prediction of weather patterns and conditions.
R8LogRhythm	R8LogRhythm	Primary	4-404-140-04	IT Vulnerability Management & Incident Response	Activities to identify and quantify the vulnerabilities or potential threats to assets and capabilities of the agency IT infrastructure and to respond to incidents as they occur.

R8PACS	R8 Physical Access Control System	Primary	4-401-121	Security Management	Security Management involves the physical protection of an organizations personnel, assets and facilities (including security clearance management). Note: Activities related to securing data and information systems are addressed under the IT Security Sub-function.
R8RMDBT	R8 Records Management DBText	Primary	4-404-141-02	Document Tracking	Activities related to the proper maintenance, tracking, publication, and archiving of official Agency documents.
R8SDMT	Region 8 Service Desk Management Tool	Primary	4-404-139-02	Desktop & User Environment Infra. Ops. & Maintenance	Activities to provide desktop support and mobile end-user technologies, including maintenance and enhancement services.
R8SDMT	Region 8 Service Desk Management Tool	Secondary	4-402-128	Asset and Liability Management	Asset and Liability Management provides accounting support for the management of assets and liabilities of the Federal Government.
R8START	R8 START Training Application	Primary	4-403	Human Resource Management	Human Resource Management involves all activities associated with the recruitment and management of personnel.
R8TempMon	R8TempMon	Primary	4-401-119	Facilities, Fleet & Equipment Management	Facilities, Fleet, and Equipment Management involves the maintenance, administration, certification, and operation of office buildings, fleets, machinery, and other capital assets that are possession of the Federal Government.
R8Versitile	R8 Versitile Enterprise	Primary	4-404-141	Record Retention	Record Retention involves the operations surrounding the management of the official documents and records for an agency.
Staff Plan	Region 8 Staffing and Planning Database	Primary	4-403	Human Resource Management	Human Resource Management involves all activities associated with the recruitment and management of personnel.
Superfund Site	Superfund Site Identifier	Primary	2-204-079	Permits & Licensing	Permits and Licensing involves activities associated with granting, revoking, and the overall management of the documented authority necessary to perform a regulated task or function.
